

ACTIVIDAD CIENTIFICA ESCRITA DRA. DAMASIA BECÚ

TESIS:

Secreción anterohipofisaria y aminas cerebrales. Presentada en la Facultad de Farmacia y Bioquímica. Septiembre 1984. Calificación: Sobresaliente. Director de tesis: Dr. Carlos Libertun.

a) TRABAJOS ORIGINALES DE INVESTIGACION PUBLICADOS

(Trabajos completos sometidos a referato)

- 1) Neurotrasmisores, neurohormonas y prolactina. Carlos Libertun, M.C. Arakelián. G.A.Larrea, L.R. Gorriño, [D. Becú](#). **Acta physiol latinoamer** **30**:275:1981
- 2) Comparative maturation of the regulation of prolactin and TSH by serotonin and TRH in male and female rats. [D. Becú](#), C. Libertun. **Endocrinology** **110**:1879:1982.
- 3) Neuroendocrine control of prolactin secretion. Libertun,C., [Becu, D.](#), Arakelian,M.C., Somoza, G.M., Lux, V.A. **Prog.Clin.Biol.Res** **87**131-152:1982.
- 4) GABA receptors in anterior pituitary and brain areas after median eminence lesions. S. Fiszer de Plazas, [D. Becú](#), A. Mitridate de Novara, C. Libertun. **Endocrinology** **111**:1974:1983.
- 5) Inhibition by naloxane of the serotonin-induced prolactin release in free moving rats. G.M. Somoza, G.A. Larrea, [D. Becú](#), D.P. Cardinali, C. Libertun. **J Neural Transmission** **56**:97:1983
- 6) Serotonergic involvement in the cimetidine-induced prolactin release. [D. Becú](#), C. Libertun. **Endocrinology** **113**:1980:1983
- 7) A developmental study of adenohipofyseal dopaminergic receptors and of haloperidol-induced prolactin release in rats. [D. Becú de Villalobos](#), M.I. Vacas, D.P. Cardinali, C. Libertun. **Develop Brain Res** **12**:167:1984

- 8) Sexual differences in the serotonergic control of prolactin and luteinizing hormone secretion in the rat. [D. Becú de Villalobos](#), V.A.R. Lux, I.M. Lacau de Mengido, C. Libertun. **Endocrinology** **115**: 84:1984
- 9) Tyramine, a natural amine, inhibits prolactin release in vivo. [D. Becú de Villalobos](#), I.M. Lacau de Mengido, C. Libertun. **Endocrinology** **116**:2044:1985
- 10) Ontogenesis of ³(H) serotonin binding sites in the hypothalamus of the female rat: relation to serotonin induced LH release in moxestrol pretreated rats. [D. Becú-Villalobos](#), C. Libertun. **Develop Brain Res** **25**:111:1986.
- 11) Receptores: Aplicaciones Clínicas: Neurotrasmisores. [D. Becú-Villalobos](#). **Bol. Acad. Nac. Medicina** **64**:75:1986
- 12) Ontogenia de mecanismos neurológicos reguladores de LH y prolactina. I.M. Lacau de Mengido, [D. Becú-Villalobos](#), C. Libertun. Bol. Asoc. Estud. Neuroendocrinos. Pags 1-, 1986
- 13) Prolactin inhibition by p-tyramine in the male rat: site of action. [D. Becú-Villalobos](#), I.M. Vacas, C. Libertun. **Endocrinology** **120**:2297:1987
- 14) Neuroendocrine changes in female rats from streptozotocin-diabetic mothers. V.G. Foglia, C.L. Heller, [D. Becú-Villalobos](#), L.S. Weisenberg, I.M. Lacau de Mengido, G. Piroli, C. Libertun, A.F De Nicola. **Hormone Metab Res** **19**:545:1987
- 15) Sexual differences in the dopaminergic control of LH secretion in the developing rat. I.M. Lacau de Mengido, [D. Becú-Villalobos](#), C. Libertun. **Develop Brain Res** **35**:91:1987
- 16) Differential responsiveness of LH and prolactin to p-tyramine in male and female rats. [D. Becú-Villalobos](#), C. Libertun. **Proc soc exp biol med** **188**:103:1988.
- 17) Chronic activation of dopamine receptors in the female infantile rat: effect on hypophyseal hormones and on the onset of puberty. I.M. Lacau de Mengido, [D. Becú-Villalobos](#), G. Díaz, C. Libertun. **Endocrinology** **124**:746:1989.

- 18) Developmental changes in FSH secretion induced by 5-hydroxytryptophan, naloxone and haloperidol in male and female rats. [D. Becú-Villalobos](#), I.M. Lacau de Mengido, C.Libertun. **Develop. Brain Res.** **47**:181:1989.
- 19) Control hormonal del desarrollo puberal en la rata hembra. [D. Becú de Villalobos](#), I.M. Lacau de Mengido. **Acta physiol pharmacol latinoamer** **40**:1:1990.
- 20) Sexual differentiation of the brain is involved in 5-hydroxytryptophan- and naloxone -induced FSH release in the infantile rat. [Damasia Becu-Villalobos](#), Isabel M Lacau-Mengido and Carlos Libertun. **Neuroendocrinol. Lett.** **12**:435-422: 1990.
- 21) Ontogenic studies of the neural control of adenohipofyseal hormones in the rat: Gonadotropins. [Damasia Becú-Villalobos](#), Isabel M. Lacau-Mengido and Carlos Libertun. **Cell. Molec. Neurobiology** **10**:473:1990.
- 22) Ontogenic studies of the neural control of adenohipofyseal hormones in the rat: Prolactin. [Damasia Becú-Villalobos](#), Isabel M. Lacau-Mengido, Graciela Díaz-Torga, and Carlos Libertun. **Cell. Molec. Neurobiology** **12**:1-19:1992.
- 23) Octopamine and phenylethylamine inhibit prolactin secretion both in vivo and in vitro. [Becú-Villalobos](#), D., Thyssen, S.M., Rey, E.B., Lux-Lantos, V.A.R., and Libertun, C. **Proc. Soc. Exp. Biol. Med.** **199**:230-235:1992.
- 24) Regulación de la secreción de prolactina. Ontogenia. [D. Becú de Villalobos](#). **Rev. arg. Endocrinol. Metab.** **29**:63-72:1992
- 25) Sexual and ontogenic differences in K⁺-induced gonadotropin and prolactin release in vitro. Graciela Díaz-Torga, [Damasia Becú-Villalobos](#), Isabel M. Lacau de Mengido, Carlos Libertun. **Develop. Brain Res** **70**:103-108:1992.
- 26) Antidopaminergic-induced gonadotropin and LH-RH release in infantile rats. Lacau-Mengido, I.M., [Becú-Villalobos](#), D, Thyssen, S.M., Rey, E.B., Lux-Lantos, V.A.R., Libertun, C. **J. Neuroendocrinol.** **5**:705-709:1993.

- 27) Ontogeny of angiotensin-induced prolactin release in vivo and in vitro in female and male rats. Graciela Díaz-Torga, [Damasia Becú-Villalobos](#) and Carlos Libertun. **Neuroendocrinology**, **59**:57-62:1994.
- 28) The effects of LHRH and angiotensin II on prolactin stimulation are mediated by hypophyseal angiotensin II-1 receptor subtype. [D. Becú-Villalobos](#), G. Díaz-Torga, I. M. Lacau-Mengido, S. Thyssen, C. Libertun. **Am. J. Physiol**, **266**:E274-278:1994.
- 29) Ontogeny of GnRH regulation in the female rat. [D. Becú-Villalobos](#), C. Libertun. **Cell.Molec.Neurobiol.** **15**:165-176:1995.
- 30) Effects of long term zearalenone administration on spermatogenesis and luteinizing hormone, follicle stimulating hormone and prolactin values in male rats Milano, G.D.; [Becú-Villalobos, D.](#); Tapia, M.O. **Am.J.Vet. Res** **56**:954-958 1995.
- 31) Hypothalamic-pituitary unit: paracrine regulation by angiotensin II. [D. Becú-Villalobos](#), G. Díaz-Torga, I.M. Lacau-Mengido, S.M. Thyssen, and C. Libertun **Frontiers in Endocrinology**, **10**:113-124: 1995
- 32) Baclofen, a Gamma-amino butyric acid B agonist, modifies hormonal secretion in pituitary cells from infantile females rats. Estela B. Rey-Roldan, Victoria A.R. Lux-Lantos, Arturo E. González-Iglesias, [Damasia Becú-Villalobos](#) and Carlos Libertun. **Life Sci.** **58**:1059-1065: 1996.
- 33) Different serotonin receptor subtypes participate in the 5-HTP induced gonadotropins and prolactin release in the female infantile rat. Lacau-Mengido, I.M., Libertun, C., [Becú-Villalobos, D.](#) **Neuroendocrinology** **63**:415-421:1996.
- 34) Molybdenosis: effect on reproductive hormones in rats. Igarza, L; Agostini, [M.](#), [Becú](#), D., Auza, N. **Arch. Med. Vet.** **28**: 101-106:1996.
- 35) Changes in the pattern of reproductive hormones in the serum induced by molybdenum supplementation and copper deficiency in rats. M.C. Agostini,

- L.Igarza, [D.Becú-Villalobos](#), I.Lacau-Mengido, M.Aba, N.Auza. **J. vet. Pharmacol. Therap.** **20**: 240-241:1997.
- 36) Brain sexual differentiation and gonadotropins secretion in the rat. [Becú-Villalobos, D.](#), González Iglesias, A., Díaz-Torga, G. Libertun, C. **Cell. Molec. Neurobiol.** **17**:699-715 1997
- 37) α -Difluoromethylornithine modifies GnRH release and FSH secretion in the immature female rat. Sandra M. Thyssen, [Damasia Becú-Villalobos](#), Isabel M. Lacau-Mengido, Carlos Libertun. **Proc. Soc. Exp. Biol. Med.** **215**:192-197:1997.
- 38) Ontogenic and Sexual Differences in Pituitary GnRH Receptors and Intracellular Ca^{2+} Mobilization Induced by GnRH. Lacau-Mengido, Isabel M, González Iglesias, Arturo; Lux-Lantos, Victoria; Libertun, Carlos and [Becú-Villalobos, Damasia](#). **Endocrine** **8**:177-183:1998
- 39) Effect of stage of development and sex on gonadotropin-releasing hormone secretion in *in vitro* hypothalamic perfusion. Lacau-Mengido, Isabel M.; González Iglesias, Arturo; Díaz-Torga, Graciela; Thyssen-Cano, Sandra; Libertun, Carlos and [Becú-Villalobos, Damasia](#). **Proc.Soc.Exp.Biol. Med.** **217**:445-449:1998.
- 40) Angiotensin II induced intracellular calcium mobilization and prolactin release are altered in adenohypophyseal cells from tumor bearing rats. Díaz-Torga, G., González-Iglesias, A., Achával-Zaia, R., Libertun, C., [Becú-Villalobos, D.](#) **Am.J.Physiol** **274**: E534-E540:1998
- 41) Nitric oxide donors modify intracellular calcium levels in rat anterior pituitary cells Beatriz H. Duvilanski, Miguel O. Velardez, Arturo Gonzalez Iglesias, Susana Theas, Adriana Seilicovich, and [Damasia Becu-Villalobos](#). **Mol. Cell.Endocrinol** **146**: 19-26:1998
- 42) Continuous ivermectin treatment from birth onwards advanced puberty onset and increased pelvic area in dairy heifers. M.Mejía, González Iglesias, A., Díaz-

- Torga, G.S., Villafaña, P., Libertun, C. [Becú-Villalobos, D.](#), y Lacau-Mengido I.M. **J.Anim.Sci.** 77:1329-34: 1999
- 43) Sperm production, testicular size, serum gonadotropins and testosterone levels in Merino and Corriedale breeds. Fernández Abella D., [Becú-Villalobos D.](#), Villegas N., Betancur O., Lacau-Mengido I.M. **Rep.Nut.Dev.** 39:1-8: 1999.
- 44) Calcium influx and intracellular stores in angiotensin II stimulation of normal and hyperplastic pituitary cells. A. González Iglesias, G. Díaz-Torga, V. Lux-Lantos, C. Libertun and [D. Becú-Villalobos](#). **Am.J.Physiol** 277:E455-E463:1999.
- 45) Endocrine studies in ivermectin-treated heifers from birth to puberty. Lacau-Mengido, I.M., Mejía, M., Díaz-Torga, G.S., González Iglesias, A. Formía, N., Libertun, C., [Becu-Villalobos,D.](#) **J.Anim.Sci.:**78:1-8:2000.
- 46) Bromocriptine restores Angiotensin II response in pituitary hyperplasia A. González Iglesias, G. Díaz-Torga, G. Piroli, R. Achával-Zaia, A.F. De Nicola, C. Libertun and [D. Becu-Villalobos](#). **Mol. Cell Endocrinol** 165(2):67-74:2000.
- 47) Desensitization of Angiotensin II effect on $[Ca^{2+}]_i$, inositol triphosphate and prolactin in pituitary cells. González Iglesias A., Suarez C., Feierstein C., Díaz-Torga G.S., [Becú-Villalobos D.](#) **Am.J.Physiol.** 280(3): E462-E470:2001
- 48) Metabolic cues for puberty onset in free grazing Holstein heifers naturally infected with nematodes. Díaz-Torga, G.S.; Mejía, M.E.; González-Iglesias, A.; Formía, N.; [Becú-Villalobos, D.](#) and Lacau-Mengido, I.M. **Theriogenology** 56(1):111:122:2001
- 49) Mechanism of action of GABA B receptor in anterior pituitary cells. Lux-Lantos, V., Rey-Roldán, E., [Becú-Villalobos, D.](#), Chamson-Reig, A., Bianchi, M., Pignataro, O.P., Libertun C. **Neuroendocrinology** 73(5):334-343:2001.
- 50) Supplementation with Hydrogenated-dried oil in Grazing Dairy Cows in Early Lactation. Schroeder, G.F., G.A. Gagliostro, [D. Becu-Villalobos](#) and I. Lacau-Mengido. **J.Dairy Sci.**85: 580-594: 2002

- 51) Disruption of the D2 dopamine receptor alters GH and IGF-I secretion and causes dwarfism in male mice. Díaz-Torga, G.; Feierstein, C.; Libertun, C.; Gelman, D.; Kelly, M.A.; Low, M.J.; Rubinstein, M. and [Becú-Villalobos, D.](#) **Endocrinology** 143(4):1270-1279:2002
- 52) What do you think is the most significant challenge facing your field? [Becu-Villalobos, Damasia.](#) **World Technology Intelligence** p20 Issue July-August:2002
- 53) Dehydroepiandrosterone treatment attenuates estrogen induced pituitary hyperplasia. Suárez, Cecilia; García Tornadú, Isabel; Khalil, Wahid; [Becu-Villalobos, Damasia.](#) **J. Endocrinology** 174(3):447-454: 2002
- 54) Angiotensin and calcium signaling in the pituitary and hypothalamus. Suárez, Cecilia; García Tornadú, Isabel; Cristina, Carolina; Vela, Jorge; González Iglesias, Arturo; Libertun, Carlos; Díaz-Torga, Graciela and [Becu-Villalobos, Damasia.](#) **Cell Mol Neurobiol.** 22 (3): 315-333:2002
- 55) Angiotensin II phosphorylation of extracellular signal regulated kinases in rat anterior pituitary cells. Suárez Cecilia, Díaz-Torga Graciela, Gonzalez-Iglesias Arturo, Vela Jorge, Mladovan Alejandro, Baldi Alberto and [Becu-Villalobos Damasia.](#) **Am. J. Physiol** (Endoc.Metab.) 285(3):E645-53: 2003.
- 56) Partial Replacement of Corn Grain by Hydrogenated Oil in Grazing Dairy Cows in Early Lactation. Salado, E.E., Gagliostro, G.A., [Becu-Villalobos, D.](#), Lacau-Mengido, I. **J.Dairy Sci.** 87(5):1265-78: 2004
- 57) Upregulation of Angiotensin II type 2-receptor expression in estrogen-induced pituitary hyperplasia. C.Suárez, G.Díaz-Torga, A.González-Iglesias, C.Cristina, [D. Becu-Villalobos.](#) **Am. J. Physiol** (Endoc.Metab.) 286(5):E786-94: 2004
- 58) Sex-linked differences in the vasorelaxant effects of anandamide in vascular mesenteric beds: role of oestrogens. RN Peroni, ML Orliac, [D Becu-Villalobos](#), JP Huidobro-Toro, E Adler-Graschinsky, SM Celuch. **Eur.J.Pharmacol.** 493:151-160: 2004.

- 59) DHEA modulates GHRH, somatostatin and Angiotensin II action at the pituitary level. Suárez, Cecilia; Vela, Jorge; García-Tornadú, Isabel; [Becu-Villalobos, Damasia](#). **J. Endocrinology** 185(1):165-72: 2005.
- 60) Increased pituitary vascular endothelial growth factor-A in dopaminergic D2 receptor knockout female mice. Cristina, C.; Díaz-Torga, G.; Baldi, A.; Góngora, A.; Rubinstein, M.; Low, M.J. and [Becu-Villalobos, D.](#) **Endocrinology** 146(7):2952-62: 2005.
- 61) Autocrine/paracrine involvement of insulin-like growth factor I and its receptor in chronic lymphocytic leukaemia. Schilacci, R., Galeano, A., [Becu-Villalobos, D.](#), Spinelli, O., Sapia, S., Bezares, R F. **Br J Haematol** 130(1):58-66: 2005
- 62) Dopaminergic D2 receptor knockout mouse: an animal model of prolactinoma [Cristina C, Garcia-Tornadu I, Diaz-Torga G, Rubinstein M, Low MJ, Becu-Villalobos D.](#), **Frontiers of Hormone Research: Pituitary Today**. Eds. Karger Publishers.. 35:50-63:2006
- 63) Restorative effect of insulin-like growth factor-I gene therapy in the hypothalamus of senile rats with dopaminergic dysfunction. C B. Herenu, C Cristina, O J. Rimoldi, [D Becu-Villalobos](#), V Cambiaggi, E L. Portiansky, R G. Goya. **Gene Therapy**. 14(3):237-45:2007
- 64) Adenohypophyseal and hypothalamic GABA B receptor subunits are downregulated by estradiol in adult female rats E B. Rey-Roldán, M S. Bianchi, B Bettler, [D Becu-Villalobos](#), V A. Lux-Lantos, C Libertun. **Life Sci** 79(4):342-50: 2006
- 65) Niveles séricos del factor de crecimiento semejante a la insulina tipo I como posible marcador de la evolución de pacientes con leucemia linfática crónica Roxana Schillaci, [Damasia Becu-Villalobos](#), Adriana Galeano, Sandra Sapia y Raimundo F. Bezares. **Hematología**. 10 (1):13-19:2006
- 66) Growth hormone in the dwarf dopaminergic D2R knockout mouse: somatotrope population, GH release and responsiveness to GH-releasing factors and somatostatin. García-Tornadú, Isabel, Rubinstein, Marcelo, Gaylinn, Bruce D.,

- Hill, David, Arany, Edith, Low, Malcolm J., Diaz-Torga, Graciela, [Becu-Villalobos, Damasia](#). **J. Endocrinol.** 190:3; 611-619:2006
- 67) Effect of fat supplementation on leptin, insulin, growth hormone and IGF-1 in cattle [Becu-Villalobos, D.](#), García-Tornadú, I., Shroeder, G., Salado, E. E., Gagliostro, G., Delavaud, C., Chilliard, Y., Lacau-Mengido, I. M.. **Canadian Journal of Veterinary Research** 71(3):218-25:2007
- 68) PTTG expression in different experimental and human prolactinomas in relation to dopaminergic control of lactotropes Cristina, Carolina, Díaz-Torga, Graciela, Goya, Rodolfo G., Kakar Sham S., Perez Millán MI, Passos, Vanessa Q. , Bronstein, Marcello D., and [Becu-Villalobos, Damasia](#). **Mol Cancer**. 2007: 12;6:4. :1-10
- 69) Different kinases regulate activation of voltage-dependent calcium channels by depolarization in GH3 cells. Jorge Vela, María Inés Pérez-Millán, [Damasia Becu-Villalobos](#), Graciela Diaz-Torga. **Am J Physiol (Cell Biol)** 2007: 293(3):C951-9.
- 70) Association of estrogen receptor-alpha and progesterone receptor A expression with hormonal mammary carcinogenesis: role of the host microenvironment. Guadalupe Montero Girard, Silvia I. Vanzulli, Juan Pablo Cerliani, María Cecilia Bottino, Julieta Bolado, Jorge Vela, [Damasia Becu-Villalobos](#), Fernando Benavides, Alfredo Molinolo and Claudia Lanari. **Breast Cancer Res**. 2007;9(2):R22.
- 71) Fibroblast Growth Factor-2 in hyperplastic pituitaries of D2R knockout female mice. Cristina, Carolina; Díaz-Torga, Graciela; Góngora, Adrián; Guida, Maria Clara; Perez-Millán, Maria Inés; Baldi, Alberto ; and [Becu-Villalobos, Damasia](#). **Am. J. Physiol** (Endoc.Metab.) 293(5):E1341-5: 2007.
- 72) Diferenciación sexual del cerebro: Genética vs. epigenética. [Becu-Villalobos, Damasia](#). **Medicina** (Buenos Aires) 67:397-402:2007
- 73) Invasive giant prolactinoma with loss of therapeutic response to cabergoline: expression of angiogenic markers. María Susana Mallea-Gill, Carolina Cristina, MI Perez-Millan, Rodriguez Villafaña Ana M, Carolina

- Ballarino, Graciela Stalldecker, [Damasia Becu-Villalobos](#). **Endocr Pathol** 20(1):35-40: 2009.
- 74) Neurotransmitter modulation of the GHRH-GH axis. García-Tornadu, I, Risso, G, Perez-Millan, MI, Noain, D, Diaz Torga, GS, Low, MJ, Rubinstein, M., [Becu-Villalobos, D](#). **Frontiers for Horm Res**. 2010;38:59-69.
- 75) Hypothalamic orexin, OX1, αMSH and MCRs expression in dopaminergic D2R knockout mice. García-Tornadú, I.; Díaz-Torga, G.; Risso, G.; Silveyra, P.; Cataldi, N.; Ramirez, M.C., Low, M. J.; Libertun, C. and [Becu-Villalobos, D](#). **Neuropeptides**. 43(4):267-74: 2009.
- 76) Effect of ivermectin treatment during growth on productive and reproductive performance of grazing dairy cows. M.E. Mejía, A.F. Perri, M.M Miglierina, N. Formía, [D. Becú-Villalobos](#) and I.M. Lacau-Mengido. **Vet. Records**. 165(25):743-6 2009
- 77) The green fluorescent protein that glows in bioscience. Perez Millan MI; [Becu-Villalobos, D](#). **Medicina** (Buenos Aires) 2009;69(3):370-4.
- 76) Disruption of the Dopamine D2 Receptor impairs insulin secretion and causes glucose intolerance. I García-Tornadú, AM. Ornstein, A Chamson-Reig, MB. Wheeler, DJ. Hill, E Arany, M Rubinstein, [D Becu-Villalobos](#). **Endocrinology**. 2010;151(4):1441-50. ESTE ARTICULO FUE COMENTADO EN LA REVISTA DE DISTRIBUCION INTERNACIONAL POR SU RELEVANCIA CLINICA: **Endocrine News**. February 2010. pp 11
- 77) VEGF and CD31 association in pituitary adenomas C Cristina, MI Perez-Millan, G, RA Dulce, G Sevlever, SI Berner, [D Becu-Villalobos](#). **Endocrine Pathol** 2010 Sep;21(3):154-60
- 78) New insights into the role dopamine D2 receptor in endocrine function gained from the D2rd^{-/-} mouse. García Tornadu I, Perez Millán MI, Ramirez C, Luque, G., Recouvreux V, Ornstein AM, Cristina, C, Diaz Torga G, [Becu-Villalobos D](#). **Neuroendocrinology**. 2010;92(4):207-14

- 79) Neurotransmitter modulation of the GHRH-GH axis. García-Tornadu I, Risso G, Perez-Millan MI, Noain D, Diaz-Torga G, Low MJ, Rubinstein M, [Becu-Villalobos D](#). **Front Horm Res**. 2010;38:59-69.
- 80) Differential neonatal testosterone imprinting of GH-dependent liver proteins and genes in female mice. Ramirez MC, Luque GM, Ornstein AM, [Becu-Villalobos D](#). **J Endocrinol**. 2010: 207(3):301-8.
- 81) Gastrointestinal parasites presence during the peripartum decreases total milk production in grazing dairy Holstein cows. Perri, A., Mejia, M. [Becu-Villalobos, D.](#), Lacau-Mengido IM. **Vet. Parasitol**. 2011;178(3-4):311-8.
- 82) Inhibitory effects of anti-VEGF strategies in experimental dopamine resistant prolactinomas Guillermina María Luque, Maria Ines Perez-Millán, Ana Maria Ornstein, Carolina Cristina, [Damasia Becu-Villalobos](#). **J. Pharmacol. Exp Ther.** ;337(3):766-74 :2011.
- 83) Active and Total Transforming Growth Factor beta1 Are Differentially Regulated by Dopamine and Estradiol in the Pituitary. Recouvreux MV, Guida MC, Rifkin DB, [Becu-Villalobos D](#), Díaz-Torga G. **Endocrinology**. 2011 152(7):2722-30
- 84) Non-conventional endocrine functions of dopamine type 2 receptor: new insights gained from transgenic mice. Isabel Garcia Tornadú, M Victoria Recouvreux, M Cecilia Ramirez, M Guillermina Luque, M Ines Perez-Millan, Rodrigo Lorenzo, María Cristina Camilletti, Ana María Ornstein, Isabel Lacau-Mengido, Carolina Cristina, Graciela Diaz-Torga, [Damasia Becu-Villalobos](#). **Acta Biochim Clin Latinomaer** 45 (4) 699-703:2011
- 85) Comparison of three methods for gastrointestinal nematode diagnosis determination in grazing dairy cattle in relation to milk production. Mejía ME, Perri AF, Licoff N, Miglierina MM, Cseh S, Ornstein AM, [Becu-Villalobos D](#), Lacau-Mengido IM. **Vet Parasitol**. 2011 183(1-2):174-7.
- 86) Thrombospondin-1 (TSP-1) Analogs ABT-510 and ABT- 898 Inhibit Prolactinoma Growth and Recover Active Pituitary Transforming Growth Factor-b1 (TGF-b1)

M.V Recouvreux, MA Camilletti, DB. Rifkin, [D Becu-Villalobos](#), and G Diaz-Torga
Endocrinology 2012; 153(8):3861-71

87) Neonatal xenoestrogen exposure alters Growth hormone-dependent liver proteins and genes in adult female rats. Maria C Ramirez; Nadia S Bourguignon; Maria M Bonaventura; Victoria Lux-Lantos; Carlos Libertun; [Damasia Becu-Villalobos](#).
Toxicol Lett 213(3):325-31:2012.

88) Enhanced nestin expression and small blood vessels in human pituitary adenomas. María Inés Perez-Millan, Silvia Inés Berner, Guillermina María Luque, Cristian De Bonis, Gustavo Sevelev, [Damasia Becu-Villalobos](#), Carolina Cristina.
Pituitary 2013. 16(3):303-10.

89) Clinical endometritis in an Argentinean herd of dairy cows: Risk factors and reproductive efficiency. Giuliadori MJ, Magnasco RP, [Becu-Villalobos D](#), Lacau-Mengido IM, Risco CA, de la Sota RL. **J. Dairy Sci.** 96(1):210-8, 2013.

90) Metritis in dairy cows: Risk factors and reproductive performance. Giuliadori MJ, Magnasco RP, [Becu-Villalobos D](#), Lacau-Mengido IM, Risco CA, de la Sota RL. **J Dairy Sci.** 96(6):3621-31, 2013 (4TO ARTICULO MAS CITADO EN 2013 DEL JDS, DESTACADO POR LOS EDITORES EN 2016 COMO A HIGHLY CITED ARTICLE SINCE 2013).

91) Central dopamine D2 receptors regulate growth hormone-dependent body growth and pheromone signaling to conspecific males D Noaín, M. Inés Pérez-Millán, EP. Bello, GM. Luque, R Casas Cordero, DM. Gelman, M Peper, I García Tornadu, Malcolm J. Low, [D Becu-Villalobos](#), M Rubinstein. **J Neurosci** 33(13):5834-42: 2013.

92) Novel, low cost, highly effective, handmade steroid pellets for experimental studies. Ana Sahores, Guillermina M. Luque, Victoria Wargon, María May, Alfredo Molinolo, [Damasia Becu-Villalobos](#), Claudia Lanari, Caroline A. Lamb. **Plos One.** 8(5):e64049: 2013.

93) Sex differences in the pituitary transforming growth factor- β 1 (TGF- β 1) system. Studies in a model of resistant prolactinomas. Recouvreux MV, Lapyckyj L,

Camilletti MA, Guida MC, Ornstein A, Rifkin DB, [Becu-Villalobos D](#), Díaz-Torga G. **Endocrinology**. 2013. 154(11):4192-205.

94) Gastrointestinal parasite control during prepuberty improves mammary parenchyma development in Holstein Heifers. Adrián F. Perri, Miguel E. Mejía, Nicolás Licoff, Santiago S. Diab, Néstor Formía, Ana Ornstein, [Damasia Becú-Villalobos](#), Isabel M. Lacau-Mengido. **Veterinary Parasitology** 2013 Dec 6;198(3-4):345-50.

95) Selective disruption of dopamine D2 receptors in pituitary lactotropes increases body weight and adiposity in female mice. Perez Millan Maria Ines, Luque Guillermina Maria, Ramirez Maria Cecilia, Noain Daniela, Ornstein Ana Maria, Rubinstein Marcelo, [Becu-Villalobos Damasia](#). **Endocrinology**. 155:829-39:2014. ESTE TRABAJO FUE ELEGIDO POR EL EDITOR PARA COMENTAR EN "NEWS AND VIEWS" COMO DESTACADO DEL MES (VER COMENTARIO EN ENDOCRINOLOGY 155(3):659-662:2014)

96) Expression and methylation status of female-predominant GH-dependent liver genes are modified by neonatal androgenization in female mice. Ramirez, Maria Cecilia; Zubeldía-Brenner, Lautaro; Wargon, Victoria; Ornstein, Ana María; [Becu-Villalobos, Damasia](#), **Molecular and Cellular Endocrinology**. 382: (214): 825-834: 2014

97) Cellular proliferation rate, and IGFBP-2 and -3 and estradiol receptor alpha expression in the mammary gland of dairy heifers naturally infected with gastrointestinal nematodes during development. Perri, A.F., D., Dallard, B.E., Baravalle C., Licoff, N., Mejía, M.E., Formía, N., Ortega, H.H., [Becu-Villalobos, D.](#), Lacau-Mengido, I.M. **Journal of Dairy Science**. Aug;97(8):4985-96.

98) Angiogenesis in pituitary adenomas: human studies and new mutant mouse models. Cristina C, Luque GM, Demarchi G, Lopez Vicchi F, Zubeldia-Brenner L, Perez Millan MI, Perrone S, Ornstein AM, Lacau-Mengido IM, Berner SI, Becu-Villalobos D. **Int J Endocrinol**. 2014;2014:608497.

99) Pituitary and brain dopamine D2 receptors regulate liver gene sexual dimorphism. Maria Cecilia Ramirez, Ana Maria Ornstein, Guillermina Maria Luque, Maria Ines

Perez Millan, Isabel Garcia Tornadu, Marcelo Rubinstein, Damasia Becu-Villalobos. **Endocrinology**. ;156(3):1040-51:2015

- 100) Pituitary tumors contain a side population with tumor stem cell-associated characteristics. F Mertens, L Gremeaux, J Chen, Q Fu, C Willems, H Roose , O Govaere, T Roskams, C Cristina, [D Becú-Villalobos](#), M Jorissen, V Vander Poorten, M Bex, J van Loon y H Vankelecom. Este trabajo fue elegido por the Society for Endocrinology (UK) como uno de los cinco JOURNAL AWARDS para los mejores trabajos publicados durante 2015 en Journal of Endocrinology, Journal of Molecular Endocrinology, Endocrine-Related Cancer, Clinical Endocrinology and Endocrine Connections . La selección fue en base a la originalidad, el contenido científico, la presentación y contribución a la disciplina. **Endocrine Related Cancer**. 2015 Aug;22(4):481-504.
- 101) Growth hormone (GH)/STAT5 signaling during the growth period in liver of mice overexpressing GH. Martinez C S, Piazza V G, Ramírez C, Díaz M E1, Boparai R K, González L, [Becu-Villalobos D](#), Bartke A, Turyn D, Miquet J, Sotelo A I **J Molecular Endocrinology** 2015 Apr;54(2):171-84.
- 102) Brain catecholamine depletion and motor impairment in a Th knock-in mouse with type B tyrosine hydroxylase deficiency. Germaine Korner, Daniela Noain, Ming Ying, Magnus Hole, Marte I. Flyda, Tanja Scherer, Gabriella Allegri, Anahita Rassi, Ralph Fingerhut, [Damasia Becu-Villalobos](#), Samyuktha Pillai, Stephan Wueest, Daniel Konrad, Anna Lauber-Biason, Christian Baumann, Laurence A. Bindoff, Aurora Martinez,* and Beat Thöny *. **Brain** 2015. Oct;138(Pt 10):2948-63 .
- 103) Dopaminergic drugs in type 2 diabetes and glucose homeostasis. Lopez Vicchi Felicitas, Luque Guillermina Maria, Brie Belen, Nogueira Juan Patricio, Garcia Tornadu Isabel, [Becu-Villalobos Damasia](#). **Pharmacological Research** 2016. 2016 Jul;109:74-80.
- 104) Hormonal regulation of metabolism. Cornejo M; Maliqueo M; Corini H; Hengtes S; [Becu-Villalobos D](#), Elias C. **Journal of Neuroendocrinology**. Jul;28(7). doi: 10.1111: 2016

- 105) Chronic hyperprolactinemia evoked by disruption of lactotrope dopamine D2 receptors impacts on liver and adipocyte genes related to glucose and insulin balance. Luque, Guillermina María*, Lopez-Vicchi Felicitas*; Ornstein, Ana María, Catalina De Winne, Brie Belén; Perez-Millan María Inés; Rubinstein Marcelo, and [Becu-Villalobos Damasia](#). **American Journal of Physiology. Endocrinology and Metabolism** 2016;311(6):E974-E988
- 106) Prolactin the bright and the dark side. Lopez Vicchi Felicitas, [Becu-Villalobos Damasia](#). **Endocrinology** 2017, 158(6):1556-1559.
- 107) Notch system is differentially expressed and activated in pituitary adenomas of distinct histotype, tumor cell lines and normal pituitaries. Perrone S, Zubeldia-Brenner L, Gazza E, Demarchi G, Baccarini L, Baricalla A, Mertens F, Luque G, Vankelecom H, Berner S, Becu-Villalobos D, Cristina C. **Oncotarget** 2017 Jul 6;8(34):57072-57088. *DBV y CC son últimos autores. [Este trabajo mereció el PREMIO ANUAL DE LA ACADEMIA DE MEDICINA 2018](#)
- 108) In situ provision of drinking water to grazing dairy cows improves milk production. Miglierina MM, Bonadeo N, Ornstein AM, Becú-Villalobos D, Lacau-Mengido IM.2017 **N Z Vet J**. 2018 Jan;66(1):37-40. doi: 10.1080/00480169.2017.1374885
- 109) Will the CRISPR / CAS9 system change the genome of humanity? [Becú-Villalobos D](#). **Medicina (B Aires)**. 2017;77(6):521-523.
- 110) Role of the enterocyte in type 2 diabetes mellitus associated dyslipidemia. Closs CI, Ruiz Diaz MA, Cafferata AM, [Becú-Villalobos D](#), Nogueira JP. **Medicina (B Aires)**. 2018;78(2):91-98.
- 111) Inhibition of Notch signaling attenuates pituitary adenoma growth in nude mice. Zubeldía-Brenner L, De Winne C, Perrone S, Rodríguez-Seguí SA, Willems C, Ornstein AM, Lacau-Mengido I, Vankelecom H, Cristina C, Becu-Villalobos D. **Endocr Relat Cancer**. Jan 1;26(1):13-29. doi: 10.1530/ERC-18-0337.2019
- 112) Brain Control of Sexually Dimorphic Liver Function and Disease: The Endocrine Connection. Belen Brie, Maria Cecilia Ramirez, Catalina De Winne,

- Felicitas Lopez Vicchi, Luis Villarruel, Eleonora Sorianoello, Paolo Catalano, Ana María Ornstein, [Damasia Becu-Villalobos](#). **Cellular and Molecular Neurobiology** 2019 Mar;39(2):169-180
- 113) The Notch system during pubertal development of the bovine mammary gland. Bonadeo N, [Becu-Villalobos D](#), Cristina C, Lacau-Mengido IM. **Sci Rep.** 2019 Jun 20;9(1):8899. doi: 10.1038/s41598-019-45406-6.
- 114) CRISPR-CAS9 en medicina, la saga continúa. [Becu-Villalobos D](#). Revista Medicina. 79:1:2019
- 115) Endocan, VEGF, FGF2 and PDGF expression in pituitary tumors. A precise angiogenic marker relationship in the context of tumor invasiveness. Tao Pengyu, Sofia Perrone, Gianina Demarchi, Agustina Chimento, Andres Cervio, Gustavo Sevlever, Silvia Berner, [Damasia Becu-Villalobos](#), Armando Basso, Chen Ge, Ling Feng, Zhang Qiuhang, Carolina Cristina.
- 116) Epigenetic modifications in the GH-dependent Prlr, Hnf6, Cyp7b1, Adh1 and Cyp2a4 genes. Brie Belen, Ana Ornstein, Maria Cecilia Ramirez, Isabel Lacau-Mengido, [Damasia Becu-Villalobos](#). **J Molecular Endocrinology**. 2020 Apr;64(3):165-179.
- 117) Chronic high prolactin levels impact on gene expression at discrete hypothalamic nuclei involved in food intake. Lopez-Vicchi Felicitas, Ladyman Sharon R., Ornstein Ana Maria, Gustafson Papillon, Knowles Penelope, Luque Guillermina Maria, Grattan David R., [Becu-Villalobos Damasia](#). **Faseb J**. 2020 Mar;34(3):3902-3914 .
- 118) Metabolic functions of prolactin: Physiological and pathological aspects Felicitas Lopez-Vicchi; Catalina De Winne; Belen Brie; Eleonora Sorianoello; Sharon R. Ladyman; [Damasia Becu-Villalobos](#). **Journal of Neuroendocrinology** : 2020-06-30 [Artículo distinguido como Top Cited por el Journal of Neuroendocrinology en 2020-21](#)
- 119) Galectin-1 impacts on glucose homeostasis by modulating pancreatic insulin release. Sundblad V, Garcia-Tornadu IA, Ornstein AM, Martinez Allo VC,

- Lorenzo R, Gatto SG, Morales RM, Gambarte Tudela JA, Manselle MC, Croci DO, [Becu-Villalobos D*](#), Rabinovich GA*. - DBV y GAR contributed equally, DBV corresponding author. **Artículo seleccionado como EDITORS CHOICE.** *Glycobiology*. 31:918-915:2021
- 120) Severe hyperprolactinemia promotes brown adipose tissue whitening and aggravates high fat diet induced metabolic imbalance. Felicitas Lopez-Vicchi, Catalina De Winne, Ana Maria Ornstein, Eleonora Sorianello, Judith Toneatto, [Damasia Becu-Villalobos](#). **Frontiers of Endocrinology** un 10;13:883092. doi: 10.3389/fendo.2022.883092. eCollection 2022.
- 121) Liver Sex Dimorphism and Zonation shaped by Growth Hormone [Damasia Becu Villalobos](#). **Endocrinology** 2022 Aug 1;163(8):bqac087. doi: 10.1210/endocr/bqac087
- 122) Benzophenones alter autophagy and ER stress gene expression in pancreatic beta cells in vitro. Szulak F, Etcheverry Boneo L, [Becu-Villalobos D](#), Fernandez MO, Sorianello E. **In Vitro Cell Dev Biol Anim**. 2022 Dec;58(10):936-956. doi: 10.1007/s11626-022-00739
- 123) Silica-collagen nanoformulations with extended human growth hormone release. Luis A. Villarruel, Belén Brie, Sofía Municoy, [Damasia Becú-Villalobos](#), Martín F. Desimone*, Paolo N. Catalano*. **Int. J. Pharmaceutics**. Int J Pharm. 2023 Mar 5;634:122662. doi: 10.1016/j.ijpharm.2023.122662.
- 124) Neuroendocrine control of brown adipocyte function by prolactin and growth hormone Catalina de Winne, Florencia L. Pascual, Felicitas Lopez-Vicchi, Luz Etcheverry-Boneo, Luis F. Mendez-Garcia, Ana Maria Ornstein, Isabel Maria Lacau-Mengido, Eleonora Sorianello*, [Damasia Becu-Villalobos*](#). **Journal of Neuroendocrinology** 2023 Mar 2:e13248. doi: 10.1111/jne.13248
- 125) Towards Targeting Prolactin Signaling in Human Diseases: Stimulate or Inhibit? Vincent GOFFIN, [Damasia Becu De Villalobos](#), Vera Popovic-Brkic, Dave Grattan **Frontiers in Endocrinology**. 2023 Jun 29;14:1213895. doi: 10.3389/fendo.2023.1213895

b) Capítulos de libros

1. Neuroendocrine control of prolactin secretion. C. Libertun, **D. Becú**, M.C. Arakelián, G. M. Somoza, V.A.R. Lux. En: *Physiopathology of Hypophysial Disturbances and Diseases of Reproduction*. E.R. Soto, A.F. De Nicola, J. Blaquier eds. Alan R. Liss, N.Y. 87:131:1982
2. Serotonin and male neuroendocrine functions. **D. Becú-Villalobos**, C. Libertun. En: *Andrology: Male Infertility and Sterility*. Paulson et al. eds. Academic Press, N.Y. pp 59-84, 1986
3. Receptores celulares a neurotransmisores: aplicaciones clínicas / Cellular receptors to neurotransmitters: clinical applications. **Becu de Villalobos, Damasia**. [Bol. Acad. Nac. Med. B.Aires](#); 64(1):75-84: 1986.
4. Control endocrino y paracrino de la secreción adenohipofisaria: participación de Angiotensina II. G. Díaz de Torga y **Damasia Becú de Villalobos**. En: *Sociedad Argentina de Biología 75 Aniversario*, pp 281-302,1995.
